About

Skilled in Web Development with expertise in MERN Stack (MongoDB, Express.Js, React, Node.Js). Proficient in building responsive applications, REST API integration, JavaScript, HTML, CSS, Git/GitHub, and deploying scalable frontend and backend solutions.

Work Experience

Veleno

MERN Stack Developer | Dec 2024-Feb 2025

Developed and deployed a MERN stack (MongoDB, Express.js, React.js, Node.js) web app. Built responsive UI, integrated RESTful APIs, optimized SEO and performance, and used Git/GitHub for version control. Increased client inquiries by 30% within 2 months.

Projects

Duestracker

Dues Tracker Web App – Built using MERN stack to help individuals and groups manage payments efficiently. Features reminders, real-time updates, and secure records. Reduced missed payments by 40% in testing, improving transparency and ease for clubs, societies, and businesses.

TeachMate

TeachMate – Developed the UI for a chatbot-based learning platform with features like attendance, auto-grading, task management, AI chat, and calendar integration. Enhanced learning efficiency and boosted student engagement by 40% during testing.

All About Indore

All About Indore – A responsive web app showcasing Indore's culture, food, lifestyle, and heritage. Provides curated guides and local insights, increasing user engagement by 35% in testing. Designed to make exploring the city seamless and interactive.
